RELEVANT EXPERIENCE

Lead Coder and Pagebuilder, Blackbird Founder's Archive, Richmond, VA

2024

- Refactored pages in the BlackBird Archive to run without Adobe Flash
- Upgraded the CSS for a website that was over 22 years old

Programming Intern, Blackbird Literary Magazine, Richmond, VA

Spring 2023

- Assisted in the development of Blackbird.vcu.edu, Vol 21 n3 edition.
- Co-developed and authored a user-friendly and secure website, meeting tight deadlines. Published a total of 141 poems, fiction prose, nonfiction literature, and biographies of each author.
- Collaborated with programmers to optimize website traffic and user experience by 55%.

ACADEMIC PROJECTS

RemindRX, Fundamentals of Software Engineering, VCU, Richmond, VA

Spring 2026

Live Site: <https://remind-rx-807d225f49a6.herokuapp.com/> | **Github:** <https://github.com/kizirkle/RemindRX>

- Developed a medication adherence platform that allows users and doctors an effective communication for when and how prescribed medicine is being taken.
- Worked in a 6-person group as one of two back-end coders, the primary bug fixer, and handled errors in Github.
- completed MVP one week ahead of schedule.
- Used HTML5, CSS3, EJS, Javascript, Express, MySQL, SQL, Node, and Github.

Fight My Dad!, Full Stack Programming Certificate, Richmond, VA

Spring 2024

Live Site | **GitHub**

- Curated and launched an interactive browser game allowing users to create and fight characters based on their dads.
- Led as project manager for a 4-person group, completing MVP 2 days ahead of schedule.
- Hand-drew all assets.
- Utilized React, JavaScript, Vite, Apollo Server, Bcrypt, GraphQL, JsonWebToken, MongoDB, and Mongoose.

Kitty Cove, Full Stack Programming Certificate, Richmond, VA

Fall 2023

Live Site | **GitHub**

- Created a small entertainment site featuring cat pictures, facts, and minigames.
- Orchestrated project management in a 3-person group, boosting team productivity by 75%.
- Utilized HTML5, CSS3, JavaScript, Bulma.io, Cats API, and GitHub.

Voyage, Full Stack Programming Certificate, Richmond, VA

Fall 2023

GitHub

- Developed a travel review platform enabling users to share detailed experiences and photos.
- Contributed approximately 60% of front-end and back-end code, and was the primary debugger for all CSS and back-end code.
- Employed HTML5, CSS3, JavaScript, Express, Sequelize, GitHub, MySQL, SQL, and Node.

OTHER WORK EXPERIENCE

Cashier University of Richmond ETC, Richmond, VA

Fall 2023 - Present

- Managed student employees and maintained customer service standards, developing strong communication and leadership skills applicable to mentoring and training junior developers in a software engineering environment.
- Effectively delegated tasks and provided training to new employees.
- Maintained meticulous inventory control and display standards in a retail store, ensuring shelves were fully stocked and visually appealing; contributed to a 15% increase in sales revenue over 6 months by optimizing product visibility and accessibility.
